

John Jasper Gacad Dio

GoHighLevel VA and AI Automation Specialist

Silang, Cavite, Philippines (UTC+8) • jasperdio08@gmail.com • +63 976 092 5794 (WhatsApp)

Portfolio: jasperdio.vercel.app/hire (seven builds you can open)

PROFILE

Admin and IT professional who builds automations in GoHighLevel, n8n and AI tools. My one real project so far was for the HR team where I work: a resume dropped into Google Drive now fills in the company form on its own. Six demo builds cover the rest: funnels and booking, pipeline follow-ups, lead sorting, and chat and voice agents. My office, IT and data roles taught me to keep records accurate, document processes and coordinate with a team.

Open to full-time or part-time remote work. Flexible schedule, with overlap hours agreed with each employer.

AUTOMATION WORK

Resume to company form **Real project · HR team** n8n, Google Drive, Google Gemini

An HR team drops a resume into Google Drive and the company form fills itself in.

Acquisition Lab **Demo build** GoHighLevel

Landing page, booking, CRM pipeline, appointment reminders and no-show recovery, all inside GoHighLevel.

Speed to lead **Demo build** GoHighLevel, n8n, Xiaomi AI, Gmail

Every new lead gets a reply within 60 seconds.

Lead qualifier **Demo build** n8n, Xiaomi AI, Gmail

Every new lead sorted HOT, WARM or COLD, then sent the right email.

Dental clinic chat agent **Demo build** n8n, Google Gemini, Facebook Messenger

Patient messages on Messenger answered 24/7, even at 2AM.

Lead follow-up **Demo build** n8n, Google Sheets, Slack, Gmail

Every new lead logged, the team told, and follow-up emails sent on time.

Voice receptionist **Demo build** n8n, Vapi, ElevenLabs

Clinic calls answered and booked, any time of day.

Demo builds were made to show what I can set up; they did not run for a client. Each one opens at jasperdio.vercel.app/hire/work.
